

DAILY
HIGHLIGHTS

January 11, 2009 - Series 2

“Although it’s called a ‘tuner’ the new FM-1 (price not yet set) from Bel Canto Design is much more than this label would indicate. How about a built-in DAC, volume control, digital inputs and outputs, and analog outputs on both RCA and XLR connectors? Yes, the FM-1 includes all that. It could very easily be the centerpiece of a high-quality compact audio system.
