

Burson Audio Demo Day

Food, Drinks and a Gift for Every Visitor

Friday September 18th Beginning at 10:30am

Blog and Post Your Experiences #BursonDemoDay

Melbourne, Australia | September 9th, 2015 | [Burson Audio](#), manufacturer of fine USB DAC/Headphone Amplifier/Preamplifiers, Headphone Amplifiers and Stereo Amplifiers, and its subsidiary [Supreme Sound Audio Components](#) is pleased to announce #BursonDemoDay showcasing both lines.

Sales Manager Martha Manea and US Service Center Engineer Mike Mona will present products including Burson's Conductor Virtuoso DAC Headphone Amp/Preamp and the powerhouse Timekeeper Virtuoso Stereo Amp. SSA will demo the Lycan Op-Amp Test Bench/Headphone Amp/Preamp, the gold standard of op-amp testers, a virtual stethoscope into the heart of your system. All demos will be on world-renowned Audeze headphones.

We're so confident you'll love the sound of Burson and SSA products that we encourage you to bring along your own headphones, headphone amplifiers and even players for what we know will be revealing comparisons.

Where: JMP Electronics, Burson Audio's Distribution Center | 14741-B Franklin Ave. | Tustin, CA 92782

Tel 714-307-8654 | Google map <https://goo.gl/gWR21f>

Friday September 18th Beginning at 10:30am | If attending email Martha at usa.sales@bursonaudio.com

Bring your own headphones, amps and players to compare. Come early, brunch at 10:30!

About Supreme Sound Audio Components

Supreme Sound Audio Components is a division of Burson Audio, a manufacturer of fine USB DAC/Headphone Amplifier/Preamplifiers, Headphone Amplifiers and Stereo Amplifiers. SSA provides DIY and OEM parts and testing equipment. Burson's iconic all-discrete op-amps are the first products available on the SSA site along with the Lycan Op-Amp Test Bench.

About Burson Audio

Burson Audio Products represent the difference between hearing music and experiencing it. Burson is a mark of quality build, thoughtful circuit design, value for money and elegant, engaging sound. Burson makes products for the world we live in where space is limited yet headphone aficionados and audio system enthusiasts expect. You want what's there but you want it better and that's why they're here.
