FI-28(R) and FI-28M(R) Power Connectors

MSRP: \$98/each Male or IEC • Now Shipping

Tokyo • January 14th, 2009 • Furutech Co., Ltd., manufacturer of analog and digital audio and video cable and accessories, debuts another sophisticated and thoroughly engineered AC connector, the FI-28(R) and FI-28M(R).

Features

- α (Alpha) pure-copper rhodium-plated conductors
- Floating Field Damper System* eliminates magnetic interference
- Nylon/fiberglass body incorporating carbon particles that absorb vibration and resonance
- Specified for cable diameters from 6mm to 17.5mm
- Dimensions: FI-28(R) • 39.6mm diameter x 76.2mm overall length
- FI-28M(R) • 39.6mm diameter x 71.6mm overall length
- Metal cable clamp improves grip and reduces mechanically and electrically induced distortion
- Rating: FI-28(R) • 10A 250V / 15A 125V AC / FI-28M(R) • 15A 125V AC

** We've renamed the patented Earth/Ground Jumper System to better describe the circuit's engineering and effects. US Patent No. 6,669,491.*

The Furutech Floating Field Damper System

The Floating Field Damper completely solves the biggest problem you never realized you had by star grounding the metal parts in which floating magnetic fields are created by current flow through the connector. A precisely engineered, sprung metal bridge ties the various parts together and shunts the potential to ground, significantly reducing distortion for ultra clean and stable power transfer.

Specially Engineered Pressure Plate and Cable Clamp

Furutech engineers have calculated that the increase in contact area is precisely 17.142%! Our specially designed secure metal cable clamp relieves strain on wire bundles of all sizes.

Furutech Pure Transmission Philosophy

Meticulous build quality is a large part of the engineering equation. Furutech Pure Transmission technology turns a macro lens on every element of power and signal transfer applying optimized engineering solutions to well-known problems such as contact resistance, EMI and RFI rejection, grounding, and using the best materials and processes available.

Furutech was honored with a Best of Innovations 2009 award for what may be the most sophisticated and thoroughly engineered AC connectors in the world, the FI-50 Series, now standard equipment on the Furutech Piezo Powerflux AC cord.

About Furutech

Furutech makes a wide variety of high performance 15A and 20A A/V cable and power connectors and parts, as well as distribution/filtering products like the new 120Hz standard xv1.3 HDMI cable, Ag-12 Silver Tonearm Cable, Pure Power 6, e-TP4+4, e-TP609 and e-TP60 Power Distributors, and e-TP80 Power Filters, deMag Disc and Cable Demagnetizer, the deStat, a fan-driven, Balanced Ion Drive device for totally eliminating static from LPs and CDs, DF-2 LP Flattener, lightweight and stylish FRD Room Diffusion Panels, PC-2 Disc Pure Cleaner, and their own very special NANO Liquid Contact Enhancer, plus even more fine cable and OEM products.
