

Now Shipping! Furutech FireBird IEEE 1394 FireWire Cable

FireBird-96

FireBird-66

**Beautifully-Constructed 1394 FireBird FireWire
For Refined Computer-Based Systems**

July 16th, 2012 • Tokyo, Japan • Furutech Co., Ltd., manufacturer of analog and digital audio and video cable plus a wide range of accessories, is now shipping the luxurious FireBird IEEE 1394 FireWire cable line in 9-to-9 and 6-to-6 pin configuration.

When it comes to cables everything makes a difference; materials, geometry, treatments, insulation and shielding all affect the sound and picture. You want high full-band transfer rates, solid construction and reliability... if the cable doesn't look like an eye-sore so much the better! The FireBird series dazzles with its looks and specs; 24 AWG silver-plated α (Alpha) OCC conductors and 20 AWG silver-plated α (Alpha) OFC power conductors for one powerful connection!

Digital music files take up a lot of space and external hard drives are a must. FireWire drives enable smoother USB output to an external DAC. Furutech is known the world over for quality and a wide variety of cables and accessories. They deliver consistently superb results because Furutech engineers adhere to Pure Transmission techniques; examine every element of signal and power transfer and optimize it all. Furutech's beautifully finished products match the sheer beauty of the sound and video, the result of meticulous engineering and artful construction.

Features

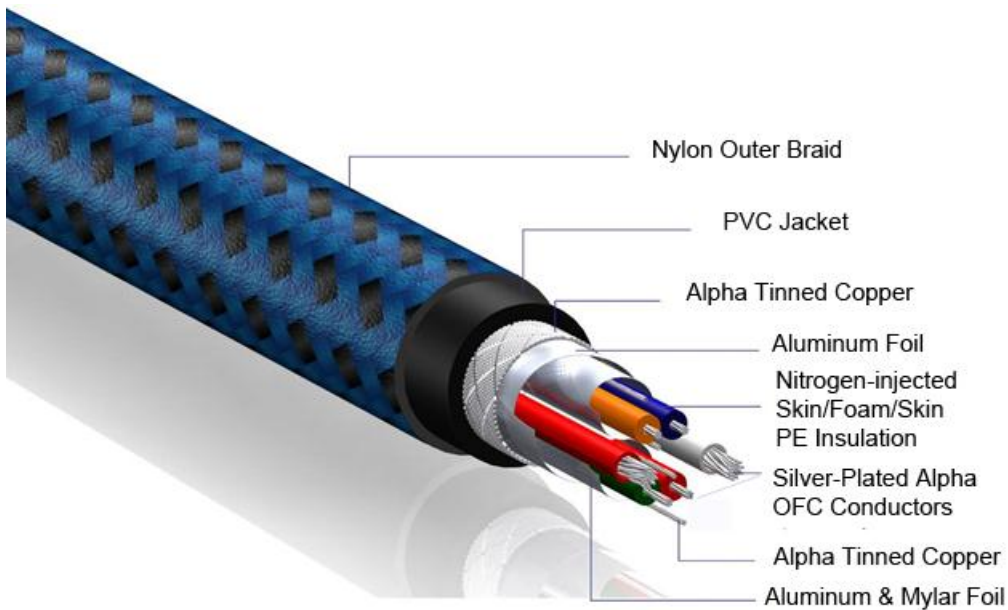

- High-performance IEEE 1394 FireWire cable transfers up to 800 Mbps (FireBird-99)
- Main conductor: 24 AWG silver-plated α (Alpha) OCC
- Power conductor: 20 AWG silver-plated α (Alpha) OFC
- FireWire Connectors: 9-pin-to-6-pin / 6-pin-to-6-pin
- Low-noise double-layer isolation with aluminum-foil and copper-wire braiding
- Triple shielded
- Jacket: RoHS-compliant flexible PVC and Nylon braided sleeve
- Production Lengths: 0.6m / 1.2m / 1.8m / 3.6m / 4.5m

All metallic parts are treated with the

**FURUTECH α (Alpha) Process (Super Cryogenic & Demagnetizing Treatment.)*

Construction and Materials

- Main conductor: 7/0.2 silver-plated α (Alpha) OCC (24 AWG)
- Insulation: Nitrogen-injected skin-foam-skin PE, Blue / Orange / Red / Green
- Power Conductor: 26/0.16 silver-plated α (Alpha) OFC (20 AWG)
- Insulation: Nitrogen-injected skin-foam-skin PE, Red / White
- Ground: 7/0.127 α (Alpha) tinned copper wire (28 AWG)
- Shield 1 and 2: AL / Mylar film
- Shield 3: α (Alpha) tinned copper wire braid
- Jacket: RoHS-compliant flexible PVC (Black)
- Sleeve: Nylon braid, OD: 7.6mm

Awards
