Furutech La Source Pure Silver LP Headshell Leads

Furutech Co., Ltd., manufacturer of refined analog and digital audio and video cable and accessories brings to market an analog accessory that analog fans need but few make well. Furutech lavished all its engineering resources on creating these new Headshell Leads. The La Source 101 Long Headshell Leads and La Source 102 Short Headshell Leads join the Monza LP Stabilizer in the latest of Furutech's analog product releases.

La Grande Épreuve

Grand Prix racing's single focus: Testing the absolute limits of technology and performance for that final 10th that makes the difference between victory and also-ran. Furutech builds each and every cable in their line the same way; optimized engineering solutions applied to advanced materials and processes, backed by utterly meticulous build quality.

To fully enjoy all that analog offers you must get every detail right, especially given the vanishingly low outputs of many cartridges. Furutech Pure Transmission technology is applied to every element of signal transfer to avoid the distortion that robs music of life. Choose the configuration matching your needs and enjoy the purest of sounds from your turntable. Match the La Source 'Leads with a Furutech Silver Arrows pure-silver phono cable and victory, as they say, is yours.

All enthusiasts are looking for the same qualities: Verisimilitude to the original event, a sense of engagement promoting suspension of disbelief, an immersion in the audio and video experience. To engage without effort requires meticulous preparation of the entire playback chain especially including signal cables, and most importantly, right at the source.

La Source 101 Long Headshell Leads • \$280
La Source 102 Short Headshell Leads • \$250
Available: Now

La Source 101 Long Headshell Leads

- α (Alpha) pure-silver conductors 0.16mm x7pc stranded wire (26 AWG)
- α (Alpha) custom phosphor bronze rhodium-plated terminations
- Teflon insulation outside diameter approx. 1.0mm
- Approx 2.5±0.1mm diameter x 43.5± 0.5mm overall length

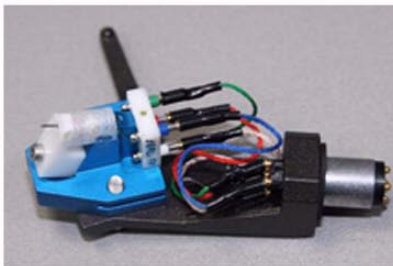

La Source 102 Short Headshell Leads

- α (Alpha) pure silver conductors,0.16mm x 7 bundle stranded wire (26 AWG)
- α (Alpha) phosphor bronze rhodium-plated special design terminal
- Female terminal: 1.0~1.2mm Dia. Pin
- Male terminal: 1.2mm outside diameter
- Teflon insulation outside diameter approx. 1.0mm
- Approx 2.5±0.1mm diameter x 23.5± 0.5mm overall length

Pure Transmission F1 Full-Contact Connector Technology

α (Alpha) Conductor Is Composed Of Fine OCC Wire Strands

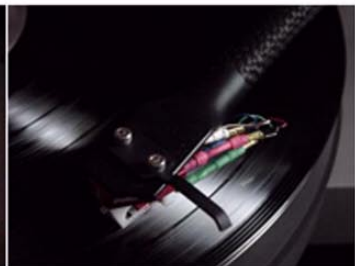

Treated With Furutech's α (Alpha) Cryogenic and Demagnetizing Process

La Source 101 Long Headshell Leads

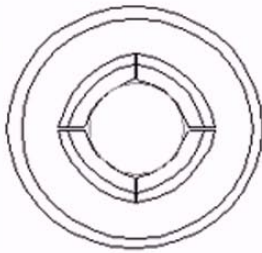

La Source 102 Short Headshell Leads

La Source 102 Short Headshell Leads

Female Terminals

Four-Point Contacts

Male Terminals

Electrical Properties

Max. Conductor Resistance	8.975 Ω / km
Min. Insulation Resistance	1x10¹⁰ MΩ·km \uparrow
Dielectric Strength	AC. 1000 V / 1 min.
Capacitance	104.37 PF / m
Impedance	66.79 Ω

Test Method

JISC3005	4.4	20°C
JISC3005	4.7.1	20°C
JISC3005	4.6 a	
	at 1 KHz	
	at 200 KHz	

Furutech was honored with a Best of Innovations 2009 award for what may be the most sophisticated and thoroughly engineered AC connectors in the world, the FI-50 Series, now standard equipment on the Furutech Piezo Powerflux AC cord.

Furutech make other award-winning analog accessories like the DF-2 LP Flattener, the celebrated DeMag, the DeStat, the SK-II LP Brush, and the Ag-12 Phono Cable of which Michael Fremer recently wrote: "The award for best performance and highest build quality at the lowest price goes to the Furutech AG-12."

Furutech's Evolution Series was awarded The Absolute Sound Editors' Choice Award in both 2007 and 2008

About Furutech

Furutech makes a wide variety of high performance 15A and 20A A/V cable and power connectors and parts, as well as distribution/filtering products like the new 120Hz standard xv1.3 HDMI cable, Ag-12 Silver Tonearm Cable, Pure Power 6, e-TP4+4, e-TP609 and e-TP60 Power Distributors, and e-TP80 Power Filters, deMag Disc and Cable Demagnetizer, the deStat, a fan-driven, Balanced Ion Drive device for totally eliminating static from LPs and CDs, DF-2 LP Flattener, lightweight and stylish FRD Room Diffusion Panels, PC-2 Disc Pure Cleaner, and their own very special NANO Liquid Contact Enhancer, plus even more fine cable and OEM products.

Team Furutech: Engineering Superior Analog Solutions for a Noisy Digital World!
