“You Can’t Handle the Truth...”

Lineflux Interconnects...

The Most Revealing Cables Furutech Has Ever Made

Tokyo, Japan • Furutech Co. Ltd., manufacturer of ultra refined analog, digital, video cable and accessories, debuts their top-of-the-line Lineflux cables, available with single-ended RCA or balanced XLR terminations. They are the most revealing cable Furutech has ever made, designed to work best in an all-Flux systems including Speakerflux, Flux Jumpers if required, Powerflux AC cords along with the Flux-50 Inline AC Filter and Daytona 303 for active and passive AC filtering and power distribution.

Is Your System is Up To It?

The Furutech Reference III series has been characterized as “transparency without pain.” The Evolution and Evolution II series deliver much of that elegantly quiet presentation at lower cost. But the Lineflux series is strictly the provenance of the most highly-refined systems displaying impeccable setup with rooms to match.

The basics: Furutech Lineflux interconnects feature solid-core α (Alpha) OCC conductor, double-layer shielding, and a high-grade polyethylene dielectric with insulating materials that further dampen the transmission line. The elegant, substantially-built extremely nonresonant RCA and XLR connectors are constructed of fully six layers of carbon fiber with stainless steel and substantial rhodium-plated pins.

The upside: The sound is sensationally transparent, dynamic and revealing. But every sword has a double edge, and if there are flaws in the rest of your system, Flux will only be too glad to make that readily apparent. Paired with smooth, extreme-resolution components and the results are magnificent. For more forward, less-resolving system, Furutech offers its Reference III and Evolution II series cables.

If your internal perfectionist insists on transparent, quick, open, totally revealing, involving and emotive sound, and you have the equipment to support it, the Flux series may be your invitation to the best sound in the house.

Click on links below for information on the rest of the revealing Flux series. See link at end for photos.

Lineflux Features

- Solid α (Alpha) OCC Conductor
- Double-layer shielding for improved noise insulation
- Insulation/Dielectric: High-grade polyethylene
- Connectors:
 - Beautiful, hefty rhodium-plated carbon fiber and stainless steel
 - CF-102R RCAs or CF-601MR / CF602FR XLR connectors
- The best damping and insulation materials available for improved frequency extension and smooth tonal balance
- Carefully engineered cable clamp improves grip reduces mechanical and electrically-induced distortion
- Dimensions: Cable diameter approx. 13.0mm • Overall length: 1.2M/set

About Furutech

Furutech makes a wide variety of high performance 15A and 20A A/V cable and power connectors and parts, as well as distribution/filtering products including the 120Hz standard xv1.3 HDMI cable, GT2 USB 2.0 and GT3 USB 3.0 cables, Ag-12 Silver Tonearm Cable, The Silver Arrows Tonearm Cable, La Source Headshell Wires, Monza LP Stabilizer Weight, the new Lineflux and Evolution II series, Pure Power 6, e-TP4+4, e-TP609, e-TP615 and e-TP60 Power Distributors, and e-TP80 Power Filters, deMag Disc and Cable Demagnetizer, PC-2 Disc Pure Cleaner, and their own very special NANO Liquid Contact Enhancer, plus even more fine cable and OEM products.
