

Positive Feedback's September Sweepstakes!

Win a Pair of Cardas Ear Speakers

September 3rd 2013 – [Positive Feedback Online](#) announces their September sweepstakes and this time it's a pair of [Cardas EM5813 Ear Speakers](#)!

Designed from the ground up, Cardas explains, every aspect of the Ear Speakers is built to mirror the human hearing system. "Cardas Ear Speakers are efficient, natural, musical, and are the result of years of meticulous design by George Cardas."

Cardas further explains: "New insights into magnetics and metallurgy have yielded a custom driver with unmatched performance. Components of the EM5813 were manufactured in Oregon, California, and the People's Republic of China. Custom alloys were sourced from Italy, Germany, and the US, magnets from China, and thin film from Japan."

The EM5813 is uses Cardas Clear Light Headphone Cable, with Matched Propagation technology, made by Cardas in Connecticut and California. The gold plated, 90°, 6.5 mm plug fits through most protective covers. Cardas Ear Speakers work well with portable headphone amplifiers or plugged straight into a smart phone or media player.
